About

Boston Burger Company has redefined what it means to be an American burger restaurant. We stack our burgers high and stuff them with flavor. Our gourmet fries are loaded with toppings and our Freak Frappes are unlike any dessert you've ever seen. Eating with us is more than a meal. It's a culinary adventure.

About

OUR STORY

Boston Burger Company was established with a mission to deliver an over-the-top dining experience while reimagining the way we see burgers, fries, and frappes. We've unleashed our creativity and taken classic menu items and turned them into mouth-watering culinary adventures. We are committed to providing every customer with such an incredible experience that they'll leave planning their next visit.

We allow ourselves to have fun and like to get crazy in the kitchen, creating the most outrageous, Instagrammable meals possible. We source the highest quality ingredients and make all of our dressings and sauces in-house. We are constantly experimenting with new specials and creating food that will go viral. Our #freakfrappes are the perfect example of taking an ordinary milkshake and elevating it to one of the most talked about desserts on the internet.

At the heart of everything we do is our goal to provide the craziest, most uninhibited meal you've ever had.

BURGERS WITH
attitude
AND FREAK FRAPPES
THAT WILL
blow your mind.
